GENERAL INFORMATION

Venue

Istituto Superiore di Sanità, Aula Pocchiari
Viale Regina Elena 299- Rome, Italy

Recipients and maximum number of participants

The conference is addressed to the staff of health institutions and research institutions interested in accessing and using biological resources as well as their collection and conservation.

Participation in this event is free.

A maximum of 200 participants will be admitted.

Conference registration

The registration form can be downloaded at the link www.iss.it or bbmri.it or from www.bbmri-eric.eu website.

The registration form duly completed and signed must be sent to stefania.bocci@iss.it or mariarosaria.napolitano@iss.it, within February 1st 2018.

Certificate of participation

Certificates of participation will be available upon request at the end of the event.

For any information regarding the event, please contact the Scientific Secretariat.

ACCESS TO BIOLOGICAL SAMPLES: USE AND IMPLEMENTATION OF BBMRI TOOLS

Rome, February 6th, 2018

Istituto Superiore di Sanità

Aula Pocchiari

The event focuses on the informatics tools for the access to samples.

The access to samples is a central topic for biobanking and there is great need of being more informed about the informatics tools developed by BBMRI-ERIC .

The event aims to disseminate the operation and use of IT tools developed by BBMRI to boost access to samples, both from the point of view of the user (researcher and/or other partner interested in obtaining samples for the realization of scientific objectives) that of the provider (biobanks, institutions that commit significant human and infrastructural resources for the collection and conservation of biological samples for research purposes). Then, the event is addressed to biobank personnel, in particular to manager and IT technicians, and to researchers that intend to use and to become familiar with Information Technology instruments for the access to samples.

PROGRAMME

- 09.30 Registration
10.00 Welcome and opening address
Walter Ricciardi

Session I

Chairperson: Luca Sangiorgi

- 10.15 How sustainable biobanking can drive your research - a BBMRI-ERIC perspective
Erik Steinfeld
10.45 Common Service-IT overview
Petr Holub

11.05 *Coffee break*

Session II

Chairperson: Marialuisa Lavitrano

- 11.30 The Directory of BBMRI-ERIC
David van Enckevort
12.00 Negotiator and Sample Locator
Petr Holub
12.30 Discussion

13.00 *Light lunch*

Session III

Chairperson: Elena Bravo

- 14.00 Miabis 2.0
David van Enckevort
14.20 The BiBBOX
Gianluigi Zanetti
15.00 Il portale BBMRI.it
Luciano Milanese
15.30 General discussion
Chairpersons: Elena Bravo, Marialuisa Lavitrano, Luisa Minghetti, Luca Sangiorgi
16.00 End of the event

SPEAKERS AND CHAIRPERSONS

Elena Bravo, Segretariato BBMRI.it, Istituto Superiore di Sanità, Rome, I
David van Enckevort, University Medical Center Groningen, NL
Petr Holub, Common Service IT, BBMRI-ERIC, Graz, A
Marialuisa Lavitrano, Università La Bicocca, Milan, I
Luciano Milanese, Institute Biomedical Technologies, Milan, I
Luisa Minghetti, Istituto Superiore di Sanità, Rome, I
Walter Ricciardi, Presidente Istituto Superiore di Sanità, Rome, I
Luca Sangiorgi, Istituto Ortopedico Rizzoli, Bologna, I
Erik Steinfeld, Director General BBMRI-ERIC, Graz, I
Gianluigi Zanetti, Centre for Advanced Studies and Research in Sardinia, Cagliari, I
